

Methodology

Define custom major roads style for zoom level 8 on mapbox.com

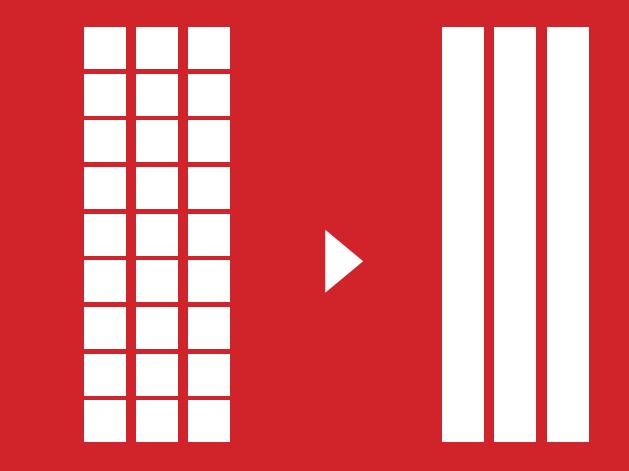

Define list of coordinates to query map:
longitude [-180,180]
Latitude [-70,80]

Define custom steps in latitudes taking into account a scaling factor due to latitudes expanding near poles.

Query api.mapbox.com for 7875 tiles of 1280 x 1280 pixels
Elapsed time ~12h

Fusion tiles of the same longitude in 106 bands of 1280 x 91808 pixels each

Fusion bands into left and right parts of world roads map

Merge left and right parts,
Resize final picture:
32976 x 16952 pixels

Download original jpg (50Mb) Download poster (6Mb)
